Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed how to amend either the specification or the claims to narrow "client computer devices" to just computers. The specification states "multi-processor system or processor-based consumer electronic device" as a computer device. The examiner suggested that deletion of "multi-processor system and processor-based consumer electronic device" from the specification would limit "client computer device" to computers; amending the claims to "client computer".
